 All LCC students may use these 'college-wide' resources after completion of local inductions and workshops, where necessary. Access may be limited during teaching sessions, or restricted to specific courses around hand-ins to allow completion of work for assessment. Please speak to Technicians for more info.

 Access to 'course-specific' resources is determined by enrolment on certain courses. Inductions and workshops in these areas will be scheduled as part of your course. Please speak to Technicians or your Course Leader for more info.
